Need extra USB ports on your computer or laptop? Tired of bending and breaking your back to connect your USB HDD enclosure, camera or mobile phone to your computer? You can now use the Eminent EM1036 High Performance 4 Port USB Hub. Just plug it in, place it on your desk, and you can connect all your computer accessories easily!

Extend your USB connections
USB 2.0 is a reliable standard, used by all computers brands and creators of computer accessories. It stands for fast data transfer and plug-and-play installation. Today's households have many USB appliances. A USB web cam, USB hard disk enclosure, All-in-One printer, USB memory stick, a mouse, a keyboard and even your mobile phone requires a USB port. Most computers and notebooks don't come with that many USB ports. It's impossible to connect that many devices to your computer, you have to duck under your desk to disconnect a USB device and connect another one. This hub solves that problem. The EM1036 USB hub is an easy way to extend your computer with 4 USB ports.

Compact black design
In accordance with the latest trends in computer design, the Eminent EM1036 High Performance 4 Port USB Hub has a partly shiny, partly mat, black look. The luxurious design makes the hub fit perfectly on the desk of today's computer user. Due to it's small size, the hub can as well be used while travelling with your notebook.

Including power adapter
The Eminent EM1036 High Performance 4 Port USB Hub comes with a power supply, making it possible to connect 4 energy consuming USB devices without any troubles. This way, you can make full use of your extra USB ports.
